

## **INSTITUTIONAL DISTINCTIVENESS**

### **Empowering through Leadership Programme**

The institution has an effective Student Council that ensures our students are given leadership experience within a power structure. The purpose of the student council is to give students the opportunity to develop leadership qualities by organizing and carrying out responsibly the various activities and projects conducted by the institution throughout the year. In addition to disposing their duties as elected members of the council, the student leaders also contribute in promoting a unified spirit among their peers and build community welfare through the various club activities in the college.

The student council serves as the voice of the student body. They help share student ideas, interests and concerns with the Principal and Professors. Students who exhibit leadership qualities, organizational behavior, event planning skills etc. are elected to the council in an election conducted annually at the beginning of the academic year. The institution conducts elections for positions such as Prime Minister, Cultural Minister, Home minister Sports and R& D Minister. The elected student representatives carry out the duties of their respective councils in adherences to the rules of the college and under the guidance of the professors.

We also encourage students to market their products in stalls set up during events in the campus which is a starting point to becoming entrepreneurs by learning to create a business plan, devise methods to raise a capital, think about branding etc.
