**REPORT ON ECO CLUB & TAMIL NADU POLLUTION CONTROL BOARD  
CELEBRATION OF INTERNATIONAL DAY OF CLEAN AIR FOR BLUE  
SKIES 2025 COMPETITION**

**Date: 30<sup>th</sup> September 2025**  
**Time: 10:30 A.M.**  
**Venue: Seminar Hall**

The International Day of Clean Air for Blue Skies is celebrated every year on 7<sup>th</sup> September to raise awareness about the importance of clean air for health, productivity, and the environment. In 2025, the theme for the celebration was **“Together for Clean Air”**, emphasizing collective responsibility and global cooperation to reduce air pollution. The main aim of the competition was to inspire students to take active roles in promoting cleaner air and a healthier environment by participating in various creative and educational activities.

The Eco Club and Swachhta Action Plan (SAP) Committee of Chellammal Women's College, in collaboration with the Tamil Nadu Pollution Control Board, successfully organized a competition to commemorate **the International Day of Clean Air for Blue Skies 2025**. The competition was conducted on **September 30<sup>th</sup> 2025**, commencing at 10:30 a.m. in the Seminar Hall. The program began with a brief address by **Dr. G. Vimala, Eco Club and SAP committee co-ordinator** who highlighted the significance of maintaining clean air for sustainable living. A total of **95** students from various departments enthusiastically participated in multiple competitions, including **Drawing, Poster Making, and Essay Writing**. Each competition centred around the importance of reducing emissions, conserving energy, planting trees, and promoting eco-friendly lifestyles.

Several participants addressed how the **burning of plastic waste** contributes to **air pollution** and advocated for alternatives such as cloth bags (**manjappai**) to **reduce plastic** consumption and subsequent improper disposal through burning. The International Day of Clean Air for Blue Skies Competition 2025 proved to be both educational and inspiring. It successfully motivated students to adopt cleaner, greener practices and understand their crucial role in protecting the planet's atmosphere.
