REPORT ON DISTRIBUTION OF ECO-FRIENDLY PLANTABLE SEED PENS

Date: 22nd December 2025

Time: 10:30 A.M.

Venue: Seminar Hall

As part of the institution's sustainable campus initiatives and the implementation of the plastic-free campus policy, an awareness programme promoting the use of eco-friendly alternatives was organised on 22nd December 2025 in the Seminar Hall. The programme was organised by the Eco Club and the Swachhata Action Plan (SAP) Committee. On the occasion, the Principal Dr. V. Malarvizhi distributed eco-friendly plantable seed pens made from biodegradable paper to the teaching, non-teaching staff and student representatives, encouraging the adoption of environmentally responsible products in everyday use.

These writing tools contain embedded seeds and can be planted in soil after use, allowing them to grow into plants. The initiative served as a simple yet meaningful step towards reducing plastic usage and promoting sustainable practices within the campus.
